About

Good day! My name is Johnlord T. Mique, 21 years old. Motivated and hardworking Information Technology student with practical experience gained through personal projects, academics, and online learning. Familiar with modern development tools and best practices, and eager to gain hands-on industry experience and contribute to real-world projects.

Education

Don Bosco College - Canlubang
Undergraduate
Diploma Program in Information Technology
GPA: 1.43

High School
Capalonga Parochial School
2016-2022

Personal Projects

Parents Portal Management System
Tech Stack: React, Node+Express, MySQL

A full-stack school management platform designed to connect schools and parents. It provides an easy way for parents to stay updated with their child's academic life while giving administrators powerful tools to manage attendance, grades, events, and communication.

Student Violation Tracking System
Tech Stack: React, TypeScript, TailwindCSS, Shadcn-UI, Node+Express, MongoDB

A full-stack web application for managing and monitoring student violations.
The system allows administrators to record and view student violations while providing a detailed profile for each student.

AI Job Interview Platform
Tech Stack: Next, Firebase, TailwindCSS, Vapi AI, Shadcn-UI, Google Gemini, Zod

A job interview preparation platform powered by Vapi AI Voice Agents and Google Gemini.
It is designed to help job seekers practice real-time AI-driven interviews and get instant feedback.

Saas Workspace Dashboard
Tech Stack: Next, TailwindCSS, Supabase, Shadcn-UI, Recharts

A complete SaaS application that showcases production-ready patterns including Row Level Security, Server Actions, optimistic UI updates, real-time activity tracking, and multi-tenancy.
